**1 GWYNETH PALTROW**  
Wears: Balmain at the *Iron Man* premiere in London  
*Harper's Bazaar* says: "Without a doubt this has been Gwyneth's year. The actress enjoyed a triumphant return to the red carpet, working looks straight off the catwalk with a daring confidence and killer body."  
*Our verdict:* Just as we were starting not to care, Gwyneth pulled it together and grabbed our attention with a sexy new image helped by a series of bondage heels and micro-minis. Perhaps best friend and queen of the comeback, Madonna, had words.
